COMPANION DATA SERVICES®
A CELERIAN GROUP COMPANY

aws | FISMA HIGH COMPLIANT | HIPAA COMPLIANT

Your business stores and transmits massive amounts of sensitive data every day, making cyber risks a top priority. Cloud environments open new opportunities to streamline information technology (IT) practices through integrated, interconnected electronic systems.

Take advantage of cloud computing's benefits without losing control of security.

We Know Security

At Companion Data Services (CDS), we know security, and we know how to keep your information safe.

By leveraging proven concepts, we provide your business with a secure cloud computing environment.

IT Staff

Proven Security

We developed our security posture to meet the most stringent federal, state and commercial requirements while providing highly comprehensive and near real-time monitoring.

CDS secures your data by performing mature implementations of National Institute of Standards and Technology (NIST) family controls and leveraging them to meet your needs.

NIST 800-53 unifies risk frameworks to meet governance obligations while preserving the specific control reference of each framework.

Experience Is The Difference

Companion Data Services (CDS) and its parent company have more than 70 years of combined proven experience in the health care IT industry. Health care IT is our cornerstone; we understand the IT challenges health organizations face and we lower your risks through proven processes and operating efficiencies.

We operate two of the largest, HIPAA compliant, top-tier health care data centers in the country that:

Serve more than
100 MILLION members

Process more than
900 MILLION claims annually

CDS provides SECURE IT solutions:
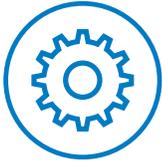

CDS Healthcare Payer Suite®

CDS Healthcare Payer Suite® is an enterprise core administrative and claims management system that helps clients achieve operational efficiencies, lower costs and provide an enhanced experience for members and providers.
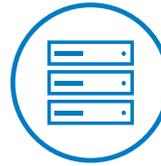

Secure Hosting & Outsourcing

Our application management services give you the freedom to focus on your core competencies instead of unforeseen costs, security breaches and IT tasks.

DocFinity® ECM & BPM/Workflow

DocFinity® is our award-winning enterprise content management and business process management solution that provides the ability to design and automate workflows through a single interface.

Cloud Companion®

Cloud Companion delivers a robust, scalable cloud-based solution that focuses on your application, integrates your systems and manages your technology.

Application Development & Maintenance

We offer agile development and maintenance, application operations and lifecycle, database administration, quality assurance, monitoring, testing and architectural services.

Managed Services

As a managed service provider, we assume the ongoing responsibility for 24-hour monitoring, managing and/or problem resolution for your IT systems.

You Don't Have to Own **IT** to Control **IT**SM
